THE INVINCIBLES.

There once were two knights full of mettle and merit.

Who joined in a league and maintained it with spirit.

No task was so hard it could battle their skill.

And one was as lean and the other as full.

I-lean was tall, lithe—all wit, wisdom and grace.

With a slightly superior smile on his face.

I-full was stout, round-shouldered, plump-necked and bold—

A terrible fellow where once he took hold.

I-will by himself, had been boastful and brags.

But I-lean kept him prudent and steady.

While this latter, unlooked from his brother.

I-lean had accomplished much less than the other.

But take them together—where'er they might go.

Doubts, dangers and obstacles vanished like snow.

From plucky I-lean to strong-armed I-full.

And surely without them the world would stand still.

For masters of Fate are I-lean and I-will.

Would Not Suffer No Again for Fifty Times His Price.

I woke last night with seven pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I took like a man and one dose freed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—J. H. Wilson, Liverman, Hagerstown, Washington Co., Pa. UNCLE SAM AND GREATER AMERICA

One story is always good enough to

the other side is said. The Democratic

papers—with an ignorance that is char-

acteristic and per-

haps commendable to

them—have been

making a great ado

about a recent utter-

ance of Mr. HENRY O. HAYMEYER, who

said:

"The mother of all trusts is the Cus-

tom Tariff Bill.

Mr. HAYMEYER then informs the de-

public that the American Sugar Refining

Company, usually called the "Sugar

Trust," of which he is President, is not

protected enough.

He says that the Pro-

tection duty on refined sugar is only one-

eighth of a cent per pound. It is evident,

therefore, that the Tariff is not the mother

of the Sugar Trust.

This leads the correspondent of The

Commercial Tribune to ask if Mr. HAY-

MEYER will kindly inform us who is the

mother of the Trust over which he pre-

sides? He ought to know.

Coal oil is an American production

and we produce all the we need.

There is a large surplus for export. There is

no tariff on coal oil, and yet the Stan-

dard Oil Company is the largest Trust in

the United States. Will Mr. HAYMEYER

inform us who is the mother of the Stan-

dard Oil Trust? These are the two great

Trusts in the country, and neither can

claim Tariff as its mother.

Whisky is an American production.

It needs no protection. Who is the

mother of the Whisky Trust?

There is not a pound of coffee raised in

the United States, and it comes in free of

duty. Who is the mother of the Coffee

Trust?

Tobacco is a home production. The

only competition it meets is in the higher

grades produced in the tropics. Who is

the mother of the Tobacco Trust?

The same can be said of many other

Trusts. It is just as fair to blame the

formation of Trusts on Congressmen Co-

lumbus as to blame it on the Tariff. He

is indirectly the father of all the Trusts

in America. The argument is as follows:

If COLUMBUS had not discovered America

it would still be inhabited by Indians.

There would be no Trusts. We might

go a step farther back and blame them to

our Isaac ILLINOIS, for he furnished the

means that enabled COLUMBUS to discover

America.

In the same way we can blame, at

least, some of the Trusts on the Protec-

tive Tariff, for if there had never been a

Protective Tariff we would now have but

few domestic industries, and, therefore,

could have but few Trusts.

It is only nine years since the manufac-

turer of tinplates began in the United

States. It began then because of the

Protection afforded by the McKinley

Bill, but that is no reason why its man-

ufacturers should organize a Tinplate

Trust.

As the most gigantic Trusts in the

country, and many of the smaller ones,

could not be traced to a Protective Tariff,

the presumption is that it has nothing to

do with their formation or existence.

KENTUCKY FLASHES.

LOST BY THE HARDIN MEN.

Attest Ten Hours Night Fight Redwine

Was Chosen Temporary Chairman

of the Democratic Convention.

LOUISVILLE, Ky., June 21.—The democratic

convention which meets at Music hall

Wednesday afternoon promises to be a most

interesting gathering. Although the

leading candidates for governor—Capt. W. J.

Stine and Wm. Wheeler—have agreed to

combine their forces in an attempt to organize

the convention, the main issue is yet to be

decided between the supporters of Mr. W. H.

Hardin, who controls the largest number

of instructed delegates.

The effectiveness of the Stine-Gobel

combination depends largely upon the ability

of Capt. Stine to control the 300 or more dele-

gates instructed for him. Gobel's strength

of 200 instructed delegates is considered a fixed

quantity. If these forces succeed in organiz-

ing the convention the support of the 200 or

more contested seats probably will give them

a winning advantage. This will result in the

nomination of Capt. Stine for governor and

Mr. Gobel will control the remainder of the

ticket and the state central committee.

LOUISVILLE, Ky., June 21.—The democratic

convention was called to order Wednesday

evening by Chairman Johnson. The Gobel-

Stine couple joined Judge David P. Redwine

in nomination for temporary chairman. W. H.

Sweeney, of Marion county, was nominated

for the first vice chairmanship.

The first roll called: Bowling, 303;

Sweeney, 414; but a number of counties were

not present on account of the fact that they

were held up pending a decision as to how the

vote of these counties were to be cast.

At 10:45 were required to elect a temporary

chairman, there were enough contesting

delegates to throw the victory to either

side, this proved the turning point of

this factional fight. There was a warm

controversy lasting an hour or more

over the question to be placed on a resolu-

tion adopted by the state central committee

Tuesday night giving the chairman instruc-

tions were supposed to be explicit in

which delegates he should recognize from

counties where there were contests.

The Democratic convention voted to

the Stine-Gobel combine. Only nine votes

were then needed to elect Redwine, and the

Democratic men said they were certain of

Redwine's victory.

After this the chairman took up the

report of the committee on the part of the

Democratic men, which was in great dis-

favor of the regular organization—the Hardin

men. The chairman then announced that

these benches of votes were added to Sweeney's

strength.

All the Louisville districts were counted for

Sweeney, when Logan county was reached the

vote stood: Redwine, 37; Sweeney, 40. Here

the Gobel men believed themselves safe in

the regularity of their credentials and Logan's

votes were expected to place Redwine out of

danger.

They were not disappointed, for, after a long

and earnest proceeding by Hon. John S. Rhea,

the vote of Logan was counted for Redwine.

The result of the ballot was not announced,

however, as the representatives of several

counties expressed a desire to change their

votes.

Redwine and the Gobel-Stine victory was

declared.

At 6:45 o'clock the democratic convention,

after waiting for three hours over a tedious

session, adjourned to meet in great dis-

order, caused by an attempt to elect a new

chairman. This caused a stampede

and no one was left in the hall. In the midst

of the excitement Chairman Johnson declared

the convention adjourned until 4 p.m.

Wednesday evening Chairman Johnson took the

convention out into the hall, where the

Democratic men in two districts and three out-

side of the city were expected to place Redwine out of

danger.

SPECIAL TAX STAMP.

Persons Subject to This Tax Should Make Application at Once.

The following circular letter has been received at the Internal Revenue office in this city:

WASHINGTON, D. C., May 20, 1906.

To Collectors of Internal Revenue:

The act of June 11, 1905, increased the number of special tax-stamps in this country from 25,000 to 40,000. This large increase in the number of such stamps, together with the delay in the preparation of the special tax stamps necessary to accommodate them, very materially retarded the issue of such stamps at the beginning of the current fiscal year.

Arrangements have now been made to anticipate the applications of special tax-payers for the coming fiscal year by placing a full supply of special tax-stamps in the hands of each collector at an early date, not later than June 1, 1906.

Collectors will avail themselves of every opportunity to acquaint the public with this fact by circulars, and through the public press, where information on this subject may be sought as a matter of news.

The attention of taxpayers should be called to the fact that while it is possible for them to delay making returns and paying the tax throughout the month in which their business commences, at the same time they are required that they shall have their special tax stamps exhibited in their places of business, and heavy penalties are imposed for a failure to do so. Their attention should be further called to the fact that when they delay filing their returns and paying the tax until the last day of June or the first day of July they will incur a crowded and confused condition of things in the office of the collector which may prevent them from receiving prompt attention, and which may result in subjecting them to vexatious delays.

In order to avoid this condition of things, special stamps will be supplied at the early date above indicated, and collectors will use every lawful means at their command to urge taxpayers to make returns and pay their taxes during the month of June, where such action is possible.

G. W. WATSON, Commissioner.

RANK FAILURE.

Dr. Charles A. McQuestion, of the Staff of Gen. E. S. Otis, returns to San Francisco.

HE IS INVADIED BY THE CLIMATE.

Reports That the Work of the Peace Commission Was Without Effect From the Start.

The Doctor, of the Opinion That It Will Require From 100,000 to 150,000 Soldiers to Properly subdue the Insurgents and Hold the Islands.

SAN FRANCISCO, June 22.—Dr. Charles A. McQuestion, who was on the staff of Gen. E. S. Otis, and who was health officer at Manila, has returned home invadied by the climate. Capt. McQuestion made a close study of the conditions of the Philippine situation. He is of the opinion that it will take from 100,000 to 150,000 soldiers to properly subdue and hold the islands.

He also says that the peace commission was an absolute failure and that its work from the start was without effect. He strongly supports the military government of the islands, except that he thinks more men will be necessary than has been estimated. "Dr. Schurman knows that the commission is a full-blown coming home in June," added Capt. McQuestion. "Unless troops, thousands of them, are sent to the aid of our men there they will be driven back into Manila in the course of the next few months, during the rainy season, to our men simply can not stand the climate. Fifty per cent of them will be incapacitated by sickness and the territory overrun will have to be abandoned. Manila will be in a state of siege again."

Our officers and soldiers have accomplished wonders and have proved themselves the best soldiers in the world. But nothing decisive has come of it because our men were not in great enough force.

"One of the great dangers that our men have to face is the climate. The newcomers will be a disaster, because the volunteers who are returning home, are injured to the climate. This will make more men necessary than we would otherwise have to put in the field. The great danger of belief the Philippine think they have the Americans licked already."

"One solution of the situation might be to enlist colored men from the gulf states and this might settle some of the race question, but I do not care to see these men would be better able to stand the climate conditions around Manila and it has been proved that they are good fighters."

Conservative Estimate Places the Amount at Less Than One Hundred Million Dollars.

CUSTOMS RECEIPTS OVER \$200,000,000.

The War Revenue for the Past Year Will Realize a Little Less Than \$100,000,000.

The War With Spain and the Trouble in the Philippines Have Cost the American Government Over This Year About \$250,000,000.

WASHINGTON, June 22.—It is regarded as a conservative estimate that the treasury deficit for the fiscal year 1900, which closes ten days hence, will be less than \$100,000,000.

Already the receipts for the year aggregate over \$408,000,000, with the expenditures barely \$100,000,000 more, with ten days, judging from past years of heavy receipts, yet to be accounted for. Up to this date the customs receipts amount to over \$200,000,000; from internal revenue \$263,550,000 was realized, and from miscellaneous sources there was received \$20,500,000.

The total receipts from all sources last year amounted to \$403,331,325, while the expenditures aggregated \$314,305,362, leaving a deficit of \$89,025,963.

From the closest calculation that can now be made, the war revenue act, which, with the exception of a few items, went into effect July 1, 1899, will realize for the year a little less than \$100,000,000. The receipts from tobacco alone will probably show an increase of \$10,000,000; beer and other fermented liquors an increase of \$25,000,000; the oleomargarine an increase of about \$85,000. The two items which have produced more than ten times as much revenue as any two others are those applying to documentary and proprietary stamps. On April 30, 1899, these items had produced over \$30,000,000, and it is not improbable that by July 1 the total will exceed \$40,000,000.

The expenditures up to this time aggregate about \$225,000,000. Of this amount \$228,000,000 has been paid out on requisitions from the war department, \$64,000,000 on account of the navy, \$139,000,000 on account of pensions and nearly \$40,000,000 on account of the public debt. \$16,000,000 was paid to the Indians and \$117,390,000 was disbursed on civil and miscellaneous account. At this time it is impossible to state with any certainty what the war with Spain and the troubles in the Philippines have cost during this year, but an approximation has been made of the actual cash payments on these accounts which places the total at \$228,000,000. A calculation has been made at the treasury which shows that the leaving out of the reckoning the \$228,000,000 expended this year on account of the war, the \$1,000,000 produced by the year revenue act and the \$11,793,314 received from the Central Pacific the figures would show a surplus for the year approximating \$200,000,000.

M. PERIER WILL TELL ALL.

INSURGENT ARMY

Largest Force is Supposed to Be in the Vicinity of San Francisco De Malabon.

OTHERS ARE IN SWAMPS AND HILLS.

Philippines Will Not Fight Our Troops Unless They Can Meet Them in Advantageous Positions.

The Rebels' Hope of Success Are Kept Afloat by Political Movement in America—Will Outlive the War Until Presidential Election.

MANILA, June 22.—The insurgent army has taken to the swamps and hills beyond Imus. The largest force is supposed to be in the neighborhood of San Francisco de Malabon, holding a position more toward the lake or toward the coast, according as exigencies demand.

Gen. Wheaton returned to Imus Wednesday bringing three men who were wounded in Tuesday's fighting. The heavy rains that fall nightly make campaigning uncomfortable. The roads are still good but the rice fields adjoining are pools of water. The Filipinos will not fight unless they can meet our troops in positions advantageous to themselves and take our reconnoitering bodies in ambush.

It is impossible to learn what effect the recent fight had upon their leaders. This should be disheartening, for they had boasted that the Americans could never conquer the province of Cavite, Aguinaldo's home country, where he always routed the Spaniards.

Gen. Otis recently received a letter, signed by native women of the province, declaring that if all the men were killed the women would still keep up the fight against the Americans.

Copies of the insurgent organ Independencia show that the Filipinos hope of success are kept afloat by political movements in America.

The Independencia prints reports of alleged speeches made at alleged meetings in the United States denouncing the war, and it asserts that these reports killed the women would still keep up the fight against the Americans.

It declares also that the Filipinos will continue the war until the next presidential campaign, which is sure to result in a decision to withdraw the American troops from the Philippines. It is reported that the Spanish garrison at Ibaia, in the province of Principe on the east coast of Luzon, which had become reduced to 33 men, finally surrendered to the Filipinos after holding out for a year.

The Filipinos imprisoned two Englishmen at Tachibon on the Island of Samar, southeast of Luzon. The British first class cruiser Grafon steamed to that point from Cebu and her commander demanded their release. When this was refused he landed a force of marines and cleared his ship for action, whereupon the Englishmen were handed over.

A MILE IN ONE MINUTE.

Paced by Locomotive, Charles Murphy Will Attempt to Make That Time on a Bicycle.

NEW YORK, June 22.—Charles Murphy, paced by a locomotive, rode a mile on a bicycle in one minute and six seconds near Maywood, L. I., Wednesday. The ride was a practice sprint. On June 30 he will endeavor to cover the mile in one minute. Between the rails of the Long Island Railroad Co. for two miles has been laid a smooth, pine flooring. Half a mile is allowed for getting up speed and half a mile for slowing down. The pacing locomotive is one of the biggest owned by the Long Island railroad which is taking an active interest in Murphy's attempt.

WELCOME INFORMATION.

The Coal Miners' Strike in the States West of the States City River is Practically settled.

INDIANAPOLIS, Ind., June 22.—President Mitchell, of the United Mine Workers' Union of America, received welcome information Wednesday night in the shape of a telegram from John P. Reese and James Boston, organizers for the international union in the states west of the Mississippi, announcing the practical settlement of the coal miners' strike in the states west of the Mississippi, which has been in progress for two months. As a result of the settlement 23,000 of the 30,000 strikers in Missouri, Kansas, Indian territory and Arkansas will return to work at once. The settlement is a distinct victory for the men, as they secure the eight-hour work day, an increase of wages amounting to from 12 1/2 to 15 per cent, and the "run of mine" method of mining coal, which means that they will be paid for all the coal they mine. All of the companies west of the Mississippi signed except the Missouri Pacific, the Missouri, Kansas and Texas, the St. Louis and San Francisco and the Choctaw and Gulf.
